The UKTI Award for Innovation

Wall after 9 years in heavily polluted environment

Protectam FN® – powerful
self-cleaning effect

Regular facade
paint

Conventional
photo-catalytic paint

Protectam FN®

For durably clean façades

- ✓ Long-lastingly clean surface – super strong self-cleaning effect activated by sunlight
- ✓ Long-lasting protection from the degrading effects of ultraviolet radiation. Provides color stability to the façade
- ✓ Highly breathable and vapor-permeable
- ✓ Self-cleaning surface is active every day, in contrast to products that only slow down soiling of façades
- ✓ Significantly extends the life of façades, while preserving a clean and fresh look
- ✓ Suitable for historic monuments – easy to remove and to renew the surface without affecting the substrate
- ✓ 10 years guarantee for a clean façade
