Functional coating FN®

Long-term protection of health of patients and staff

- ✓ Prevents micro-organisms from settling, FN®1 **BioMax** actively kills viruses, bacteria and other micro-organisms. FN® prevents the development of resistant strains of bacteria.
- ✓ Hygienic nanotechnology for the prevention of nosocomial infections
- ✓ Certified product verified by hygiene and environmental inspection
- ✓ Removes odors and fumes by disinfection and improves air quality
- ✓ Compatible with concurrent use of chemical agents
- ✓ Long-term functionality – 5 years guarantee of efficiency
- ✓ Pure physical biocidal effect – does not bring chemicals into the environment
- ✓ In accordance with the legislation in force, the coating allows prolongation of the painting cycle in healthcare facilities.
(pursuant to Decree No. 306/2012 Coll.)

Renewal of the FN® 1 BioMax once every five years – surgery and operating theaters, acute bed intensive care workplaces, collection rooms, laboratories, infectious wards, pediatric and neonatal wards.

Renewal of FN® 1 BioMax once every seven years – other premises of non-health care facilities
